HUNTEX AC-24 SOFTENER AND ANTI-WRINKLE AGENT IN BATH FOR SYNTHETIC FIBER

HUNTEX AC-24 is a softener, anti-wrinkle agent in the bath, suitable for nylon and its blended fabrics. It has excellent anti-wrinkle effect and also has the effect of removing oil stains. In high temperature or atmospheric pressure dyeing, HUNTEX AC-24 can effectively prevent wrinkles, creases, scratches, water marks and so on.

General property

1. Appearance : white or slightly yellow emulsion
2. Composition : special polymer
3. Ionicity : Anion/Nonion
4. PH value : 6.5 ± 1.0 (25°C, 1% aqueous solution)
5. Solubility : Soluble in cold or warm water

Characteristic

1. It can improve the hydrophilicity of the fiber in the dye bath, so it can prevent wrinkles, wrinkles and creases, and can improve the elasticity and softness of the fiber.
2. In the dyeing or bleaching process, the oil on the cloth can be removed.
3. High temperature stability, low foaming and good workability.
4. It has good compatibility with various additives and additives.
5. Does not affect color tone and fastness.
6. Good storage stability, no stratification, and no precipitation.
7. Promote the post-processing softener and the absorption of the hair raising agent to obtain a better thick hand.

Instructions

It is generally recommended to add 1.0 g/l → 2.0 g/l

Package

120kg/barrel
