

# SOULBIO ET (Laundry Softener)

## ● Chemical Composition

Organic fatty acid compound

## ● Technical Specification

- ☆ Appearance: pale yellow flakes
- ☆ PH value: 3 ~ 5 ( 5 ~ 10% solution )
- ☆ Ionicity: Weak cationic

## ● Dissolving Method

- ☆ Cold water: Add the flakes in water (30℃) gradually in the proportion of 5-10%, stir them for 3-5 mins, then leave them aside for 1-2 hours, stir the mixture again gradually to get an even paste.
- ☆ Warm water: Add the flakes in water (room temperature) gradually in the proportion of 5-10%, stir them for 3-5 mins, heat up to 60-70℃ and stir them for 30-60 mins again until the flakes become an even paste, then cool it down

## ● Properties

- ☆ Impart soft, smooth and fluffy handle to fabric
- ☆ Low yellowing
- ☆ Competitive price
- ☆ Hydrophilic

## ● Field of Application

- ☆ For denim and fabrics washing

## ● Application

- ☆ Dipping: Dosage: 3 ~ 8% ( o.w.f ) (10% solution) Temperature: 40 ~ 50℃  
Ratio : 1:10 ~ 15 Time: 30min

## ● Storage and Packing

Shelf life: 12 months when store in cool, dry and shaded warehouse  
Packing: 25kg plastic woven bag

○ Compatibility of other auxiliaries and process need to be checked before application
