# HUNTEX HB-4212N

## SOFTENING AGENT

HUNTEX HB-4212N is an excellent smoothing softening agent for nature fiber , synthetic fiber ...It has the effect prevent the reduction of strength of yarn, increasing the brilliance on surface of fabric and the beautiful feeling .

### General trait

1. Appearance: milky white liquid
2. pH:  $5.0 \pm 1.0$
3. Ionicity: weak cationic
4. Solubility : Soluble in cold or warm water

### Characteristic

1. In general finishing or resin process on Polyester, nylon, cotton, rayon and wool fabric, etc., this agent can increase the brilliance of dyed fabric and imparts a smooth silky hand feel to fabrics.
2. In resin finishing process, HUNTEX HB-4212N can be used to prevent the reduction of strength of yarn. So it can reduce the amount of the used softener.
3. In waterproofing finishing process, this agent can be used to increase the effect of waterproof.
4. For rayon and cotton yarn, using this agent can increase the elastic strength of yarn.
5. It's washable.

### Instructions

- 1.Padding method, recommended dosage: 10g/l  $\rightarrow$  30g/l
- 2.Exhaust method, recommended dosage: 1.0%  $\rightarrow$  3% w.o.f

### Package

120 kg / barrel
