Confirmation

We can confirm, that during the production of our products

TEGO ANTIFOAM® series

TEGOMER® series

TEGOPREN® series

none of the following substances are intentionally added or evidently formed,
therefore we assume that these substances are not present in our products.

- substances on SVHC-list, updated Jan 15, 2018

However the declaration of the substances is neither part of the product
specification nor part of the certificate of analysis, so we do not routinely analyze
for these substances.

Sincerely Yours

Dr. Thomas Müller
