CÔNG TY TNHH HÓA CHẤT HÙNG XƯƠNG

KCN Hải Sơn, ấp Bình Tiền 2, Xã Đức Hoà Hạ, Huyện Đức Hoà, Tỉnh Long An, Việt Nam. ĐT: (072) 377 8055 / 377 8056 / 377 8057 / 377 5058, Fax: (072) 377 8060

HUNTEX RO-60 DISPERSING & LEVELING AGENT

In high temperature, high speed dyeing conditions, dispersing and leveling agents must to have some required: low-foaming, good dispersion, strong diffusion and retarding effect, etc... Huntex RO-60 is an ideal dispersing leveling agent, suitable in above condition.

Properties:

1. Appearance: yellow transparent liquid

2. Component: Particular surfactants

3. pH value: $7 \pm 1(1\% \text{ aqueous solution})$

4. Ionic nature: Anion/ Nonionic

5. Solubility: Soluble in cold or warm water.

Features:

- 1. HUNTEX RO-60 is a low foam product, suitable to be used for the high-speed and high- pressure dyeing machines.
- 2. HUNTEX RO-60 have strong diffusing and retarding effect, so If used it in Filament fabric Dyeing batch, we can achieve good levelness.
- 3. This agent is very economical. The dosage is reduced, because of its high concentrations.
- 4. The dispersion ability of this product is very good, to prevent precipitation of dyestuffs in high-temperature.
- 5. HUNTEX RO-60 have strong diffusing and retarding effect, but no effect reproducibility of shading color.

Usage:

The amount of use for exhaust process: $0.2 \rightarrow 1.0g/l$

Packaging:

120kg/ plastic barrel Expiry date: 3 months.

Note environmental preservation in cool and dry place.
